NGUYEN TUAN NAM

Full-Stack Developer • AI Automation Engineer • SQL Server & C# .NET Specialist

Location: Hanoi, Vietnam (GMT+7)
Phone / Zalo / WhatsApp: +84 973 429 832
Email: namtuna02@gmail.com
Date of Birth: November 28, 2002

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer & AI Automation Engineer based in Hanoi, Vietnam, specializing in building end-to-end Python & Generative AI pipelines, interactive web applications (React / FastAPI), C# .NET desktop software, and normalized SQL Server database architectures. Proven track record of delivering high-converting AI lead generation funnels, automated multi-stage video production engines, visual node-based RPA workflow tools, and enterprise management systems with clean, maintainable code.

CORE TECHNICAL COMPETENCIES

AI & Automation:	Python, Gemini LLM API, Prompt Engineering, Playwright, Selenium, PyAutoGUI, OpenCV, FFmpeg NVENC
Web & Full-Stack:	FastAPI, React 19, React Flow, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, RESTful APIs
Desktop & Enterprise:	C# .NET, Windows Forms (WinForms), 3-Layer Architecture (GUI / BLL / DAL), ADO.NET, Excel/PDF Reporting
Database & Modeling:	Microsoft SQL Server, T-SQL, Stored Procedures, Triggers, Views, 3NF Schema Design, ERD & DFD Modeling
UI/UX & Product:	Figma, Responsive Web & Mobile Prototyping, Design Systems, E-Commerce Conversion Optimization

WORK EXPERIENCE & FEATURED ENGINEERING PROJECTS

Independent Full-Stack & AI Automation Developer | Freelance / Self-Directed Projects — 2024 – Present | Hanoi, Vietnam

- **AI Insurance Consultation Funnel & Lead Automation System (Dai-ichi Life Project):** Architected a 30-second interactive multi-step benefit calculator, AI consultation assistant, automated Zalo/PDF quote generator, and targeted social group lead scraper (Facebook/Threads), automating 24/7 client acquisition across desktop and mobile.
- **AetherVideo — Full-Stack AI Video Production Studio:** Engineered an automated 5-stage AI video production platform (FastAPI + React 19) integrating Gemini LLM script breakdown, character visual consistency sheets, Seedance 2.0 web automation, and hardware-accelerated FFmpeg multi-track 1080p MP4 rendering.
- **Local Workflow Studio — Visual Node-Based Desktop RPA Engine:** Built a local-first drag-and-drop workflow automation studio using React Flow and a Python execution backend (PyAutoGUI) supporting mouse/keyboard control, app launching, conditional branching, and reusable sub-workflows.

C# .NET & SQL Server Database Developer | Enterprise Software & Academic Capstone Projects — 2024 – 2026 | Hanoi Open University

- **Workforce & Construction Project Management Software (C# .NET & SQL Server):** Developed a 3-layer Windows Forms ERP application managing departments, employees, construction projects, engineering milestones, role assignments, daily attendance, and executive KPI dashboards.
- **Enterprise Warehouse & Inventory Management Database (SQL Server / T-SQL):** Designed a 3NF relational database comprising 11 normalized tables (products, batch/expiry tracking, warehouse bin locations, inbound/outbound receipts, stocktaking, and audit logs). Programmed automated `AFTER INSERT/UPDATE/DELETE` triggers for real-time inventory validation and rollback protection, alongside parameterized stored procedures and analytical views.
- **Retail Bookstore System Architecture & E-Commerce UI/UX Design (Figma):** Authored comprehensive system analysis documentation (Functional Decomposition, DFD, ERD) and designed a modern 4-stage electronics e-commerce storefront in Figma (Homepage, Category Filter Catalog, Product Detail, and Voucher Checkout).

EDUCATION

Hanoi Open University (Đại học Mở Hà Nội) — Bachelor of Information Technology (B.S.) — 2024 – 2028 | Hanoi, Vietnam

- **Major:** Information Technology / Software Engineering & Database Systems.
- **Key Coursework:** Relational Database Management Systems (SQL Server), Object-Oriented Programming & C# .NET Application Development, System Analysis & Design, Web Engineering, and UI/UX Design.

LANGUAGES & AVAILABILITY

- **Vietnamese:** Native / Bilingual Proficiency | **English:** Professional Working Proficiency (Technical Documentation & Client Communication)
- **Availability:** 30+ hrs/week • Fast response in GMT+7 with flexible overlap for US, EU, and APAC time zones.
